Specialty Workshops

Parents Workshops are designed to answer the most pressing questions for parents with children of all ages. Topics will include speech and language, genetics, early intervention and other education services, a guide to managing healthcare information, how to best interface with your insurance company, family and couples relationships, and more.

Adults Sessions will focus on issues important to adults with facial differences, such as secondary surgery and treatment, tackling insurance hurdles, social and behavioral skills, and employment and ADA law. Focus groups for those interested in outreach are scheduled.

Teens
(Ages 14 – 17) With a focus on goal-setting and developing social and behavioral skills, get ready for fun-filled workshops that will help you communicate with parents, siblings, peers, and adults like doctors and teachers. Great information for students in high school as well as recent graduates who will be going to college or entering the workforce. Siblings are included in all activities.

Pre-Teens
(Ages 11 – 13) The middle school years are a time of transition. Workshops are designed to help pre-teens recognize and maximize their potential in school and the community, and learn how to best communicate their ideas and opinions about friends, family, school and their healthcare. Siblings are included in all activities.

Explorers Club
(Ages 7 – 10) Games and activities with both education and fun in mind! Sessions will help children understand their trip to the doctor and develop their social skills so they can answer questions about their facial difference when parents aren't around. Siblings are included in all activities.

Kids' Camp
(Ages 0 – 6) Childcare for the little ones will be provided for your convenience. Plenty of fun close-by so parents can benefit from workshop activities, and know their little ones are safe and sound. Activities, games, videos, and more! Siblings are included in all activities.

Pathfinder Outreach Network Whether your interest is one-to-one family support, or you seek to establish an extensive local/regional support organization, the Pathfinder Outreach Network training workshop will provide the tools you need to launch and maintain your own outreach program. If you've ever imagined reaching out to the parents of a newborn, sharing your experiences with other individuals with facial differences, or helping the medical and educational communities understand what families need, join us for tips and training, outreach materials and ideas, and interaction with other Pathfinders from around the country.

Pathfinder Outreach Network training is included in all NACFC conference packages; free childcare will be provided. This workshop will include focus group interaction. Team coordinators, social workers and other interested professionals are encouraged to attend. Organizations are encouraged to send outreach and leadership teams.

AmeriFace Family Fun Day (optional) Of course, we would love for you to stay over for the **optional** Family Fun Day on Thursday, July 28. Although there are no formal conference activities scheduled, you might consider visiting area attractions (Hoover Dam, Lake Mead, Circus-Circus Adventuredome theme park, area museums and more) or just hang out at the pool with new-found friends. Hotel group rate applies three days before and three days after our event.

Medical and education professionals are welcome at all conference events!
